## My projects in detail:

## Mathis Poirier

### Web developer

As a computer science student with a passion for web development, I am motivated to put my skills into practice through a work-study program starting in January 2026.

### Degrees and Training

#### BUT informatique

Depuis septembre 2024 [IUT Lens](#) Lens

#### Baccalauréat Technologique

De septembre 2021 à juillet 2024 [Henri d'Arras](#) Liévin

Spécialité : SIN (Système d'Information et Numérique)

### Projets

#### LenSymphony

- This project provides a **Java** library for representing and synthesizing musical pieces.
- It allows users to define notes, rests, and staves, and to synthesize the sound of a complete piece of music using virtual instruments.

#### BomberMan

- Development of a Bomberman-style video game in **Java**.
- Creation of a graphical interface using **JavaFX**.
- Implementation of movement, collision detection, and explosion effects.
- Object-oriented programming (OOP).

#### Event website

- Development of a travel showcase website in **HTML/CSS**.

### Computer Skills

#### Programming languages

- Java
- Python
- HTML/CSS
- PHP (Apprentissage)
- SQL
- FLASK (Apprentissage)

#### Computer tools

- Visual Studio Code
- Suite JetBrains
- Pycharm
- Scène Builder
